

TERRITORIANS!

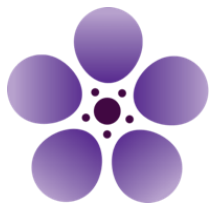

- Every state in Australia and the ACT has passed a law allowing terminally ill adults the option of voluntary assisted dying.
- Only Northern Territory residents are currently denied the same option.
- The NT Voluntary Euthanasia Society asked all election candidates if they support Territory residents having the same end-of-life options as other Australians.

These candidates answered

'YES'

VOTE FOR THEM!

If a candidate in your electorate is **not listed**, they will **not support their constituents** on this matter or they **refuse to make a commitment** to do so.
